Star

Rita Coolidge

Star
Star you've seen better days
You've seen the lights and the cavalcades
Opening nights when the audience fades
And all you've got to hold you is the soul
that heaven loaned you

Star
I've seen them come and go
Theyre only voices on my radio
Star you bring me to my soul
And you're my only music
You've got the touch so use it

Star I guess you'll never know
The times you saved me from letting it all go
The nights I spent with you on my stereo
When all my dreams were bleeding
I had you to believe in

Star...
You can dance with the man
With the ticket in his hand
Let him name you
Just be what you are
What you've always been
Star
