

# We Had It All

Rita Coolidge

I can hear the wind blowing in my mind  
Just the way use to sound  
Through the Georgia Pass  
You were there to answer when I call  
You and me, we had it all

Remember how I use to touch your hair  
While reaching for the feeling  
That was always there  
It was the best thing in my life I recalled  
You and me, Lord knows, we had it all

Know I can relive those time again  
I just let my dreams takes me there to where we been  
I'll stay right there with you  
Just as long as I can  
Whoa, it was so good  
Yes, it was so good  
Oh, it was so good when you were my man

I never stop believing in your smile  
Even though you didn't stay  
It was all worthwhile  
It was the best thing in my life I recalled  
You and me, Lord knows, we had it all  
Oh yeah, you and me, we had it all  
You and me, we had it all
