

# Cashmere

Rita Ora

Yeah, yeah, yeah

City lights, blurry face  
Been missing the feeling, the mistakes  
Took a walk, fast pace  
Shoes off, only four blocks to your place

Had to climb through the window 'cause you lost your key  
Getting high with the lights low, had a few more drinks  
And the next thing we know, your lips on me  
Put it on so you can take it off of me

Cashmere, left it lying by your bed  
It's the colour red, how could I forget?  
Cashmere (cashmere), last night we made such a mess  
I knew when I left I'd see you again  
So what if I did it on purpose?  
So what? Yeah, I did it on purpose  
Cashmere (cashmere), left it lying by your bed  
I knew when I left I'd see you again

Yeah, yeah, yeah

Left a mark on my neck  
But I don't mind and I don't try to hide it  
You woke me up on your chest  
And tonight let's do it all again

We'll climb through the window, you can lose your key  
Getting high with the lights low, had a few more drinks  
And the next thing we know, your lips on me  
Put it on so you can take it off of me

Cashmere, left it lying by your bed  
It's the colour red, how could I forget?  
Cashmere (cashmere), last night we made such a mess  
I knew when I left I'd see you again  
So what if I did it on purpose?  
So what? Yeah, I did it on purpose  
Cashmere (cashmere), left it lying by your bed  
I knew when I left I'd see you again

Yeah, yeah, yeah

Yeah (cashmere), yeah (cashmere), yeah

Cashmere, left it lying by your bed  
It's the colour red, how could I forget?  
Cashmere (cashmere), last night we made such a mess  
I knew when I left I'd see you again
