

# Dancing In My Brain

Rita Ora

Well usually I'm the life of the party  
But this is a different story  
'Cause you were uninvited  
And I don't want you here

You said your goodbyes  
Brought tears to my eyes  
Now you're stuck deep in my head

And you're having your way  
With me every day  
Got me scared to going back

(Pre-Chorus)  
You tell me you love me then you leave me  
Back and forth all the time  
But I pay the price when you can't decide  
Now I can't close my eyes

(Chorus)  
Since you walked away  
I've been losing sleep at night  
Can't get you out my mind  
It's like you're playing games  
And you're dancing in my brain  
Why can't you be a man and just say goodbye  
Stop wasting all my time  
You're driving me insane  
You're just dancing in my brain

You're driving me insane

My head is a disco that's open  
And you're the only that can close it  
But you choose to keep on dancing  
And you just won't leave me alone

Got bags under my eyes heavy oath in your lies  
Don't think I'll sleep again  
Pull the trigger put me out my misery  
I give up you win

(Pre-Chorus)  
You tell me you love me then you leave me  
Back and forth all the time  
But I pay the price when you can't decide  
Now I can't close my eyes

(Chorus)  
Since you walked away  
I've been losing sleep at night  
Can't get you out my mind  
It's like you're playing games  
And you're dancing in my brain  
Why can't you be a man and just say goodbye  
Stop wasting all my time  
You're driving me insane

You're just dancing in my brain

You're driving me insane

Why won't you leave me

Get out of my head

Get out of my head

Head..

(Chorus)

Since you walked away

I've been losing sleep at night

Can't get you out my mind

It's like you're playing games

And you're dancing in my brain

Why can't you be a man and just say goodbye

Stop wasting all my time

You're driving me insane

You're just dancing in my brain
