

# Heat

Rita Ora

I'll be drawing you on me

Your heat on me, on me, on me  
Your heat on me, on me, on me  
All week, you there, put that on me  
The one thing that I need  
The one thing that I need

Sex on sight, anyway you like, inside or outside  
Get your friend, tell her hold your shit, you'll be back some time  
Just my type, damn, you're just my type (My type)  
You should text your girl, just check in  
'Cause we're goin' again, and again, and again

Everything's workin', goin' body to body  
Give it all you deserve it, only one thing that I need

Your heat on me, on me, on me  
Your heat on me, on me, on me  
All week, you there, put that on me  
The one thing that I need (I need, I need)  
The one thing that I need (I need, I need)  
Yeah, yeah

Chemical acceleration (Yeah)  
One taste, always, no breaks (Uh-uh, uh-uh)  
I'm lost, lost in overstimulation (Uh-uh)  
One touch, head rush, I want you (Yeah)

Everything's workin', goin' body to body  
Give it all you deserve it, only one thing that I need (I just need)

Your heat on me, on me, on me  
Your heat on me, on me, on me  
All week, you there, put that on me  
The one thing that I need (I need, I need)  
The one thing that I need (Oh, I just need your)  
Your heat on me, on me, on me  
Your heat on me, on me, on me  
All week, you there, put that on me  
The one thing that I need (I need, I need)  
The one thing that I need (I need, I need)

I just need your heat on me  
I need, I need your heat on me  
All day, all night, all that, all week  
I need, I need your heat on me  
Your heat on me (I just need)  
Your heat on me, on me, on me (I need, I need your heat on me)  
Your heat on me, on me, on me (All day, all night, all that, all week)  
All week, you there, put that on me (I need, I need your heat on me)  
The one thing that I need (I need, I need; Your heat on me)  
The one thing that I need (I need, I need; Your heat)
