

# Summer Love

Rita Ora

I like the way you leave me with a taste on my tongue  
I like the way you whisper when you tell me you love me  
I swear that I can give you every breath in my lungs  
As long as you can promise that you'll be here to hold me

Oh, I can't wait to fall into this web you spun  
No, I don't wanna get back up  
Just keep me now

Sounds like  
Summer love  
Keep me high  
I'm all alone  
Won't you stay awhile  
Summer love  
You're by my side  
We can rule the world  
Just you and I

Summer love  
You're by my side  
We can rule the world  
Just you and I  
Just keep me in love

Summer love  
You're by my side  
We can rule the world  
Just you and I  
Summer love  
You're by my side  
We can rule the world  
Just you and I

Summer love  
Keep me high  
I'm all alone  
Won't you stay awhile  
Summer love  
Keep me high  
I'm all alone  
Won't you stay awhile  
Summer love  
Keep me high  
I'm all alone  
Won't you stay awhile...
