

# You & I

Rita Ora

I used to listen to the love songs on repeat  
Tryna figure out how they would work for me  
I just wanted to dance with somebody  
Somebody who loved me  
Now I see you standing in our garden lights  
Damn I knew when I got dressed to go that night  
That I finally found that somebody  
To stand by me

I will ride for you  
Spare my life for you  
If you ask me to

Now I'm dancing in your arms to "Eternal Flame"  
I know my life is never gonna be the same  
And that's fine  
There's a lifetime in those eyes  
Now we're singing all the words to "Sweet Caroline"  
And you say to me, "I love the way you look tonight"  
You know I  
I never got it right  
Until I found you and I

Always thought that the one thing waiting for me  
Was not a wonderful world but a tragedy  
But you went and rewrote our whole story  
To an everlasting love

I will ride for you  
Spare my life for you  
If you ask me to

Now I'm dancing in your arms to "Eternal Flame"  
I know my life is never gonna be the same  
And that's fine  
There's a lifetime in those eyes  
Now we're singing all the words to "Sweet Caroline"  
And you say to me, "I love the way you look tonight"  
You know I  
I never got it right  
Until I found you and I

You and I  
Until I found you and I  
Ooh, you and I

Now I'm dancing in your arms to "Eternal Flame"  
I know my life is never gonna be the same  
And that's fine  
There's a lifetime in those eyes  
Now we're singing all the words to "Sweet Caroline"  
And you say to me, "I love the way you look tonight"  
You know I  
I never got it right  
Until I found you and I
