

# All Fall Down

Rita Springer

I feel You burning when You're next to me  
You're all I really want to see  
'Cause when You come down  
You wreck all my plans  
You wipe away my tears  
And breakdown all my fears  
I am changed when I feel Your Hand

You come around  
And we all fall down  
You come around  
And we all fall down  
You come around  
And we all fall down  
You come around

You come and break all the lies  
You're the only why  
I find myself getting strong when I'm weak  
You tear down all my walls  
You love me just because  
All You wanted was to see me free

You come around  
And we all fall down  
You come around  
And we all fall down  
You come around  
And we all fall down  
You come around

Breaking me, changing me  
Calling me higher higher now  
Breaking me, changing me  
My flesh is falling, falling down

You come around  
And we all fall down  
You come around  
And we all fall down  
You come around  
And we all fall down  
You come around  
And we all fall down
