

Landslide

Rita Springer

You are steadfast, You stay faithful
There's no turning in Your ways
Your love outlasts every failure
It's always waiting in the wings

You have met me with Your presence, I will never be the same
You know how to close the distance I've made

You're after my heart and You're gonna win it
You're after my heart and I'm gonna give it
And every piece, and every part
You're after it all, oh, You're after my heart

There's no hiding when You're searching
I could never go too far
You are lighting the way perfect
To lead me back to where You are

You're after my heart and You're gonna win it
You're after my heart and I'm gonna give it
And every piece, and every part
You're after it all, oh, You're after my heart
You're after my heart and You're gonna win it
You're after my heart and I'm gonna give it
And every piece, and every part
You're after it all, oh, You're after my heart

I'm bringing everything good, everything right
Everything pure, I'm not gonna fight
Your love is like a landslide
Your love is like a landslide
Take me out of my head, out of my mind
Into my heart, I'm not gonna fight
Your love is like a landslide
Your love is like a landslide
Bringing everything good, everything right
Everything pure, I'm not gonna fight
Your love is like a landslide
Your love is like a landslide
Take me out of my head, out of my mind
Into my heart, I'm not gonna fight
Your love is like a landslide
Your love is like a landslide

You have met me with Your presence, I will never be the same
You know how to close the distance I've made

You're after my heart and You're gonna win it
You're after my heart and I'm gonna give it
And every piece, and every part
You're after it all, oh, You're after my heart

Oh, You're after my heart
Oh, You're after my heart
'Cause Your love is like a landslide
It's coming after my heart
You're coming after my heart

Your love is like a landslide
Coming after my heart
Coming after my heart
