

My Yes

Rita Springer

It's the middle of the night
And I can't breathe
Anxiety's got the best of me
Wondering does my God even see?
I'm yelling at my soul "Just believe!"

My hands still raised I'll go where you lead
I don't understand it but I'm following

When I gave my yes I meant it
Walking the ledge and I'm not quitting
You never promised that it would be easy
I'd do it all over again
My yes is yes is yes
Cause You said that You'd never leave me
That's what I'm still believing

The morning came again and You sat me up
Your mercy poured out and You filled my cup
My voice reminds my soul
"You gotta get up!" "Oh, You have to get up!"

When I gave my yes I meant it
Walking the ledge and I'm not quitting
You never promised that it would be easy
I'd do it all over again
My yes is yes is yes
You said that You'd never leave me
That's what I'm still believing

My flesh doesn't want to find a ram in the thicket
Be Jonah in the whale or in a prison cell sitting
Keep, my heart pure not bitter in the waiting
Let my yes be yes be yes
You pay a high price when you walk out of Egypt
When you cross the Red Sea just to live in the desert
I don't want to wander or to question you in it
Let my yes be yes be yes
Let my yes be yes be yes
Let my yes be yes be yes

When I gave my yes I meant it
Walking the ledge and I'm not quitting
You never promised that it would be easy
I'd do it all over again my yes is yes is yes
Cause You said that You'd never leave me
That's what I'm still believing

My hands still raised I'll go where you lead
I don't understand it but I'm following

My yes is yes is yes is yes is yes
My yes is yes is yes is yes is yes
My yes is yes is yes is yes is yes
My yes is yes is yes is yes is yes
My yes is yes is yes is yes is yes
My yes is yes is yes is yes is yes

My yes is yes is yes is yes is yes
My yes is yes is yes is yes is yes
My yes is yes is yes is yes is yes
My yes is yes is yes is yes is yes
My yes is yes is yes is yes is yes
