

Over I Go

Rita Springer

Sky opens up
Wind starts to blow
You start to move
I start to believe
Eyes open wide
Hands to the sky
You bring release
I start to get free

You can take me over Your waterfall
You can push, push at this envelope
You can tell me to jump
And over I go, over I go
Into the new thing
Out comes a new scream
I sing a new song
I am a new sound
Into the new thing
Out comes a new scream
I sing a new song

I am a new sound
Heaven coming down
You spin around
I let You breathe
Inside of me
Nothing the same
Me You can change
Into the deep
You all of me

You can take me over Your waterfall
You can push, push at this envelope
You can tell me to jump
And over I go, over I go
Into the new thing
Out comes a new scream
I sing a new song
I am a new sound
Into the new thing
Out comes a new scream
I sing a new song

I am a new shout - hey
I have a new shout
So push me
Push me over the edge
Out of the box
Out of my head
Out of the norm
Into the light
Out of all
These doctrinal heights
Push me, push me
Over I go
Out of the fear
Out of the show

Out of a slave
Into a friend
This is the way
Of new oxygen - hey yeah
Give me sound now
Give me sound now - yeah
