

You See Me (In Focus)

Rita Springer

There's nothing missing
No question whose I am
You don't make mistakes
You've never failed a plan
And all of my seeking
It all comes back to You
You have won me over
The way, the One, the truth
You make room for me

You see me in focus
[?] that You couldn't be found
Never been closer than I am right now
You see me perfectly
Couldn't love me more than You already do
This heart of mine is Yours and it's not gonna move

You're more than a feeling
The home I'll always have
Even when I doubt you
You always lead me back
You love me dearly
With a voice I recognize
Like a smile, I can't forget
Like a friend I've known for life
You make room for me

You see me in focus
[?] that You couldn't be found
Never been closer than I am right now
You see me perfectly
Couldn't love me more than You already do
This heart of mine is Yours and it's not gonna move

The same Jesus sees me now
It's the same Jesus that saw me then
And the same Jesus gave me a vow
To be the same Jesus forever, amen

You see me in focus
[?] that You couldn't be found
Never been closer than I am right now
You see me perfectly
Couldn't love me more than You already do
This heart of mine is Yours and it's not gonna move
And it's not gonna move
