

# Bad Boy

Riton

(Bad, bad boy, ooh)  
My love's gonna round turn again  
Her from the Twitter and my best friend  
What's a girl like me to do then?  
Find a new man that's better times ten  
Now is like a movie scene  
Looks like he came out of my dream  
Prettiest boy that I have ever seen

(Bad, bad boy, ooh)  
So I dance and I grooved  
And I shake it around  
And it's new love that I've found  
Make some lines all on the ground town  
Just so you know that I hold you down  
People talk and try to compare  
But we're too in love to care  
And everyone can see that it's there

(Bad, bad boy, ooh)  
I love to, love to, love to love you baby  
You are my sun, you are my moon  
I love to, love to, love to love you baby  
And now you done the things you do  
(I love the things you do)

My sister gyal had a man  
So she can have what no one else can  
What's a girl like her to do then?  
Call up the crew to get him in check  
Now he knows he tries the wrong one  
She moved on and got her groove on  
Found her a good boy for the long run

(Bad, bad boy, ooh)  
So I dance and I grooved  
And I shake it around  
And it's new love that I've found  
Make some lines all on the ground town  
Just so you know that I hold you down  
People talk and try to compare  
But we're too in love to care  
And everyone can see that it's there

(Bad, bad boy, ooh)  
I love to, love to, love to love you baby  
You are my sun, you are my moon  
I love to, love to, love to love you baby  
And now you done the things you do  
(I love the things you do)

(Throw out all the bad boys)  
Throw out all the bad boys  
The one's past their expiry date  
The best buy date  
(Throw out all the bad boys)  
Stay longer than their shelf life

Throw them all in the trash, now  
You are my sun, you are my sun, you are my sun  
You are my sun, you are my sun, you are my sun  
You are my sun, you are my sun, you are my sun  
You are my sun, you are my sun, you are my sun  
You are my sun, you are my sun, you are my sun

(Bad, bad boy, ooh)  
I love to love to love to  
Love you baby  
You are my sun  
You are my moon  
I love to love to love to  
Love you baby  
And now you done  
The things you do  
(I love the things you do)  
(I love the things you do)
