

We'll Always Have This Dance

Riton

So much to gain
And everything to lose
The irony
The fear of losing you

But don't be sad
We'll always have this dance
In a place where the future's the past
Even if it's our last

We'll always have this dance
We'll always have this dance
We'll always have this dance

We can't change time
But time will change us all
That's why I'll love you now
With twice the beats in my heart
No matter whatever happens
We'll always have this dance
In a place where the future's the past
Even if it's our last

We'll always have this dance
We'll always have this dance
We'll always have this dance

This is more than luck, much more than chance
Every step we took, each good and bad
Brought us here sharing the same golden moment
We'll always have this dance

We'll always have this dance
We'll always have this dance
We'll always have this dance
We'll always have this dance
