

# Sometime

Ritt Momney

I tell myself  
I mean my mind  
I mean my body well  
I know sometimes it might be hard to tell  
But there's a light inside of me  
And it shines like a sound  
I can play it like a beat  
I can flip up a frown  
Make your body move your feet  
I got mine on the ground  
Hands to catch me when they leave it  
Sometimes I block the light out  
Sometimes I wanna be it

Take some time  
It's probably gonna take some time  
I'm probably gonna take some time  
For me

Wrapped in a brand like it's a body bag  
Block out the sound I like the sound of that  
You can hold the applause go get your money back  
Take a step out my mind  
There's a world outside of me  
Lift the lids off my eyes  
Lift the lips off of my teeth  
No more wasting my time  
I'm gonna take some time for me

Take some time  
It's probably gonna take some time  
I'm probably gonna take some time  
For me

Take some time  
It's probably gonna take some time  
Take some time  
It's probably gonna take some time  
Take some time  
It's probably gonna take some time
