

# Politically Correct

Rittz

I can't say this  
I'm not allowed to say that either  
That might piss somebody off or offend somebody  
Fuck it

It's hard for me to talk about shit these days  
There's so many rules that I'm supposed to abide by (shh)  
Everyone's so sensitive saying not to mention shit  
Fuck it I'm about to break the ice down  
What should I begin with? Shit I shouldn't mention  
Women tryin' to sentence Bill Cosby  
Pill or no pill, why the fuck you' in his room, ho?  
Should've told him meet you in the hotel lobby  
Wait, oh, wait, shit, I'm not allowed to say "ho"  
You ain't got to fuck, say "no, bitch" damn  
A bitch blackmailed me once  
Guarantee when I see her, I'm goin' beat her like a grown-ass man  
You can smack hoes, that so? Really, since when?  
R. Kelly's situation is a bit taboo  
Like a sixth grade me skipping class with a chick, saw my first pair of tits  
at school

I guess nowadays you supposed to be politically correct  
I hope you hear this song and you get physically upset  
I'm joking and poking fun, that' because you tickled me to death  
I'm just playing, I just hate that they get way too sensitive

Cunt, can't say the c-word, can't say the b-word, can't say the n-word, maybe you can (nah)  
If you hang with some friends that okay it if you say it with the a in the end (not cool, dawg)  
There's a major percentage of fat white chicks who like black guy dick  
Problem is that's the only type of hoes I can get (I can't feel shit)  
A pussy hole so stretched out I don't feel shit  
But she try to blame it all on my dick  
Bitch, hold up relax, I'm just saying what you want  
Really, most of us feel the same way  
And don't even act like you don't get a tad bit afraid like a terrorist was on the same plane  
But I can't talk religion, diss politicians  
Can't even say the word "retard" (fuck that [?])  
But imprisoning innocent Mexican children  
That's cool 'cause they didn't have a green card?  
Geez

Cunt you can't even flirt if you're not that attractive  
You fuck around and you get charged with harassment (don't touch me)  
Even if you got a hard on for it like a cop when he's physically assaulting a black man  
There's some unwritten things that you're not allowed to diss, like try it and you'll probably get shun (fuck that)  
Some things the majority of people love by default I just don't

Fuck with, here are some  
I don't like Mick Jagger or the Rolling Stones (never have)  
Truthfully I really hate the Beatles more (their songs suck)  
I respect what they did for the culture  
Same thing with the Beastie Boys  
Your screechy voice just make me mad and so does Breaking Bad, I can't stand  
bad acting  
I couldn't tell you who's in the NFL  
A lot of dorks play sports, I don't dick ride athletes  
Never been a fan of Orange Is The New Black  
These yuppie ass parents and their young ones  
And everybody cares [?]  
And I wish you'd shut the fuck up!  
Smart mouth brat, really needs to get smacked  
Now I got you all mad, what you got a bad temper?  
Well, fuck you, fuck your fam, you're confused like a republican transgender  
Jesus Christ!

Oh I can't say that?  
My bad
