

# Angel

Rival Sons

I see the light behind your eyes  
I want to know how you make them shine  
And every time I see your smile  
I can't believe how you stopped the time

She's like the changing of the seasons  
Cold wind is blowing through my mind  
Keep me rolling round in circles  
Sweet little angel, you're my kind  
You're my...

I hear the bird that sings  
And you, you lock it deep inside your heart  
Why don't you set it free  
So we can go and take it back from the start?  
Angel, angel, angel

She's like the changing of the seasons  
Cold wind is blowing through my mind  
Keep me rolling round in circles  
Sweet little angel, you're my kind

She's like the changing of the season  
Cold wind is blowing through my mind  
Keep me rolling round in circles  
Sweet little angel, you're my kind  
You're my kind  
Angel, angel, angel
