Bright Light

Rival Sons

I listen for my future in the wind
And it told me I was about to lose my way
Too many circles not in a line
Makes tomorrow feel just like today

Well, I never noticed I was treating myself so bad
Hanging out on the line
Another victim of a victimless crime

Bright is the light I'll see
The ship will come my way
Out to rescue me
Here come the one that I know
The flag is waving high
I can see it with blue eyes

The end came only to begin again
Destined at the love I cast aside
Too many nights and not enough days
I think tomorrow I'll just run and hide

Well, I never thought that the hunger I had
Would drag me out of my mind
I was a victim of a victimless crime

Bright is the light I'll see
The ship will come my way
Out to rescue me
Here come the one that I know
The flag is waving high
I can see it with blue eyes

Well, I never noticed I was treating myself so bad
Hanging out on the line
I was a victim of a victimless crime

Bright is the light I'll see
The ship will come my way
Out to rescue me
Here come the one that I know
The flag is waving high
I can see it with blue eyes

Bright is the light I'll see
The ship will come my way
Out to rescue me
Here come the one that I know
The flag is waving high
I can see it with blue eyes

Bright is the light I'll see
The ship will come my way
Out to rescue me
Here come the one that I know
The flag is waving high
I can see it...
