

Dark Matter

Rivals

The impact of this is gonna be fun
Reckless behavior, get ready to run
Bleed me dry to get the answers you want
I like the pain, it makes me feel calm

Bitter and broken, I'm fucking bored
Nothing to lose so watch me transform
A butterfly but with devil horns

Dark matter
Nothing ever felt the way it's supposed to
Call my dealer
If I sober up I'll leak my own future
I'll be, I'll be the darkest soul you've ever seen (ooh)
Dark matter (dark matter)
Nothing ever felt the way it's supposed to

Self-sabotage is all that I know
Dirt to my lips, another episode
Losing my grip, someone hand me the phone
'Cause I'm calling God, tell him that I'm not going home

Bitter and broken, I'm fucking bored
Nothing to lose so watch me transform
A butterfly but with devil horns

Dark matter
Nothing ever felt the way it's supposed to
Call my dealer
If I sober up I'll leak my own future
I'll be, I'll be the darkest soul you've ever seen (ooh)
Dark matter (dark matter)
Nothing ever felt the way it's supposed to

The devil on my shoulder, she's telling me it's over
But I don't even really wanna go
If God is a woman, then so is the devil
So the devil is someone you know
Criminal behavior, I am my own savior
A monument to who I've become
I'm overly aggressive, the biggest of messes
It's probably why I'm always on the run
