

# Dead Flowers

Rivals

Never go back to where we started  
Know I'm better off alone  
Lead the snakes out of my garden  
Before the weeds were overgrown

Suffocated in my cursed life  
Breathing easily for the first time  
Took me days till I lost sight  
I see the world in a new light

Dead flowers in my hair, hair  
I finally don't care, care  
I've embraced the rain  
And I'm happy now  
I've cried a little, I've hurt a lot  
You know the rain won't stop  
Dead flowers in my hair, hair  
'Cause I'm happy now

Here I stand on trampled petals  
A broken heart and some empty words  
You had a mind made of twisted metal  
Swore you meant it and that's why it hurts

Suffocated in my cursed life  
Breathing easily for the first time  
Took me days till I lost sight  
I see the world in a new light

Dead flowers in my hair, hair  
I finally don't care, care  
I've embraced the rain  
And I'm happy now  
I've cried a little, I've hurt a lot  
You know the rain won't stop  
Dead flowers in my hair, hair  
'Cause I'm happy now

I wear my trauma, like a badge of honor  
Cause I'm so much stronger than I was before  
All my problems, we're a melodrama  
So I made myself a crown, that keeps me warm

Dead flowers in my hair, hair  
I finally don't care, care  
I've embraced the rain  
And I'm happy now  
I've cried a little, I've hurt a lot  
You know the rain won't stop  
Dead flowers in my hair, hair  
'Cause I'm happy now
