

Man Eater

Rivals

Can an Angel fall past hell?
Lived a life meant for someone else
This world will never figure me out
I'm over tryina to restrain myself

If you're gonna be throwing that dirt on my name
You're gonna be watching me digging your grave
I'll be picking your flesh out my Tiffany rings
Cause I'm huntin' em when I break out the cage

Claws out I'm a maneater
They see diamonds in my fangs
Cold-blood never taste sweeter
Than that look upon your face
I gotcha like, ooh...
Liquid gold venom runnin' runnin' through your system like
I'm a maneater, maneater

I'm so damn sick of killing with kindness
I'm so on edge cutting through diamonds
I thought you were fearless
Why been you hiding
You're a petty piece of meat, bitch I'm a tigress

Claws out I'm a maneater
They see diamonds in my fangs
Cold-blood never taste sweeter
Than that look upon your face
I gotcha like, ooh...
Liquid gold venom runnin' runnin' through your system like
I'm a maneater, maneater

If you're gonna be throwing that dirt on my name
You're gonna be watching me digging your grave
I'll be picking your flesh out my Tiffany rings
Cause I'm huntin' em when I break out the cage

Claws out I'm a maneater
They see diamonds in my fangs
Cold-blood never taste sweeter
Than that look upon your face
I gotcha like, ooh...
Liquid gold venom runnin' runnin' through your system like
I'm a maneater, maneater
