

# Misery Memory

Rivals

Start living in the light of what you feel  
Don't be afraid to tell me what you think is real  
I wanna see your heart, I wanna slow it down  
I want to see what you're all about

Put your faith and time in me (Time in me)  
I can give you what you need (What you need)  
So let the future set you free  
Don't keep your memories with misery  
Put your faith and time in me (Time in me)

(Don't keep your memories with misery)  
(Don't keep your memories with misery)

Stop walking in the flame that follows you  
You've had some time to realize just what you wanna do  
If you wanna see my heart, if you wanna slow it down  
I want to see what you're all about

Put your faith and time in me (Time in me)  
I can give you what you need (What you need)  
So let the future set you free  
Don't keep your memories with misery  
Put your faith and time in me (Time in me)

(Don't keep your memories with misery)  
(Don't keep your memories with misery)

Put your faith and time in me (Time in me)  
I can give you what you need (What you need)  
So let the future set you free  
Don't keep your memories with misery  
Put your faith and time in me (Time in me)

(Faith) Don't keep your memories with misery  
(Faith) Let the future set you free  
(Faith) Don't keep your memories with misery  
(Faith) Let the future set you free
