Rivals

Why do you keep doin' this to me?  
Like a fire burning right through our sheets  
This fire brings down our house  
At least we say we tried, we can say we tried  
And I guess I was overreacting  
And I guess it was all my fault  
You can blame it on me  
If that's what you want  
Two thousand forty four miles away  
Two thousand minutes we'd waste  
Between every state and every day  
Nothing else, no  
Nothing ever seemed so great  
Nothing ever seemed so great

I can see that this world is bigger than you and me  
But I'm afraid this moment's the only one  
The only thing that's guaranteed  
So stay here with me  
It's like I'm

Giving up everything  
Just so we could run away, my Romeo  
Eventually we'd never leave notes  
'Cause right now I'm writing you this song  
To sing along, to shout it loud  
So one day I'll hear it  
One day we'll sing it  
Omaha and Wichita could never keep us apart  
'Cause we're stuck like glue  
I'm never gonna give up on you  
And those miles, those miles, those miles  
Those final words

I can see that this world is bigger than you and me  
But I'm afraid this moment's the only one  
The only thing that's guaranteed  
So stay here with me  
It's like I'm

Talking to myself one one, one on one, one on one  
Through a phone, no response, no, no  
I'm hanging up, I'm hanging up  
'Cause I've had enough

I can see that this world is bigger than you and me  
But I'm afraid this moment's the only one  
The only thing that's guaranteed  
So stay here with me  
It's like I'm waitin' for the day we meet
