

## Talkin

## Rivals

I do this thing where I talk  
When I should probably shut the fuck up  
I'm not good when I speak  
I tend to fumble everything that I mean

Dumb words were said, repeat again  
Replay in my mind as I lie awake  
You wanna talk, but I shut right up  
'Cause I know I'm wrong  
But I just take the beating

There I go again  
I went and fucked it up but when  
Do you admit you did the same to me? (It hangs over your head)  
No, I'm not innocent  
Spit us out like cinnamon  
Called it quits and decided to leave but  
I'm not the only monster

(Monster)

Lonely nights, cold and white  
Help me find the meaning  
For my sake, home and safe  
But I had to burn our future  
These mistakes made me break  
But I crumble as I'm speaking

I talk and I talk and I talk

There I go again  
I went and fucked it up but when  
Do you admit you did the same to me? (It hangs over your head)  
No, I'm not innocent  
Spit us out like cinnamon  
Called it quits and decided to leave but

Trust me, I know that therapy would help me (Yep)  
Swear that I don't need it (Hell no)  
That's why I'm the problem  
Never catch me talkin'  
Talkin'  
Yeah  
(I do this thing where I talk)  
(I do this thing where I talk)

There I go again  
I went and fucked it up but when  
Do you admit you did the same to me? (It hangs over your head)
