

Wild Things

Rivals

(Yeah, yeah)

Been waiting a long time (Yeah, yeah)
Felt broken, defeated, but that's fine (Yeah, yeah)
I've been here a thousand times (Yeah, yeah)
I've been ready for daylight, daylight

A black heart doesn't mean a blank mind
(A black heart doesn't mean a blank mind)
A hurt soul can mean that you're just fine
(A hurt soul can mean that you're just fine)

Never stray and never change
We are the wild things, we are the wild
Never be nobody
We are the wild things, we are the wild
Never stray and never change
We are the wild things, we are the wild

'Cause one day you'll find out, find out why your heart's still beating
Walk down the same streets, where they talked shit on you for dreaming
Imagine this, being twenty-one
And giving up on everything that you've never done
Now picture this, you're thirty-two
You took the time and you followed your dreams through

Never stray and never change
We are the wild things, we are the wild
Never be nobody
We are the wild things, we are the wild
Never stray and never change
We are the wild things, we are the wild

Can you feel the night?
Cold but you know morning comes
You see my eyes?
White, but I'll survive
Can you feel the night?
Cold but you know morning comes
You see my eyes?
White, but I'll survive

Never stray and never change
We are the wild things, we are the wild
Never be nobody
We are the wild things, we are the wild
Never stray and never change
We are the wild things, we are the wild
