

## Bend Time

River Whyless

I want to bend time  
Make light of the night  
Would you believe me if I told you, you're the end of the line

It's not a virtue  
To stay in one place  
Would they forgive me if I left them just to see your face

Take my life if you want it  
I wouldn't care  
I want to know what love is

It's not a question  
Of how we began  
It's all the good things we could do to each other in the end

Long days and hard times  
The just way is hard to find

Take my life if you want it  
I wouldn't care  
I want to know what love is

Take my life if you want it  
I wouldn't care  
I want to know what love is
