

Call Me Your Baby

River Whyless

In and out of innocence
I am in and out of my senses
In and out of innocence
I am in and out of my senses

Call me your baby
If I can call you my baby

Come to and listen
Come to my whispering
All that I wish of you is to let me rest
Let me lay my head like a child
On a bed so still

Where you can call me your baby
And I can call you my baby

Could you let me rest?
I need the night
From the madness save me
Love of my life
To never-ending trust

Call me your baby
And I will call you my baby
Call me your baby
And I will call you my baby
