

## Darkness in Mind

River Whyless

What am I makin' love for? Why do I carry on?  
How can you enjoy it when you're so far gone?  
Do you want me to explain it  
You want me to confess  
That I don't tend to wander on the road to success

I have the got the darkness in mind  
You're all right and I am fine  
But I have got the darkness in mind  
In my mind I can lie all the time

All you need's a good idea to get the things you want  
And if I had two of them I'd surely give you one  
So pick up your face now and listen for the bell  
The only way to make a dime is to fall down the well

I have got the darkness in mind  
You're all right and I am fine  
But I have got the darkness in mind  
In my mind I can lie all the time

Watched you at the cannery, beneath the boomer's sweat  
And followed you from the factory to your television set  
Open up your cupboards and take your glasses down  
I wanna see you break one so I can understand

I have got the darkness in mind  
You're all right, and I am fine  
But I have got the darkness in mind  
In my mind I can lie all the time  
In my mind I can lie all the time
