

## Fast Like a Match

River Whyless

If heaven is a dim light  
From your mouth to mine  
Still I dream completeness  
From another's kiss  
The sweetness from another's lips

Slow down

When do I let it rest?  
When do I leave?  
A piece of me was built by this, babe  
It was a former kiss  
The madness on young lovers' lips  
Fast like a match

Loving the old love  
Up until the new love  
I believe in you love  
You have my heart

The life, the life, the life  
The life that brings me joy  
To roam across the country  
With all my foolish boys  
The crowd's got a hold on me  
I want to stay here at my best  
Clinging to the dim light  
Until there's no light left

Loving the old love  
Up until the new love  
I believe in you love  
You have my heart

It eats every word  
And needs like a bird  
In the nest of my chest

Slow down
