

Heaven and Light

River Whyless

Held in eternal hands
How we believe and build in the sand
How we conceive and live to defend

Time and again it's true
The quicker the judge, the quicker the fool
Longing to leave it all, longing for you

As you show me a kinder day
In the end now
Don't we fade to the same heaven and light?

Blind love is love alike
But no man is made in one maker's eye
We are a parasite, we are divine

But this is the line of blood
This is the half-mast by which we stood
Hand on our heart, did what we could

As you show me a kinder day
Ain't it freedom
That we fade to the same heaven and light?

As you show me a kinder day
When you lay me down
To find my way to heaven and light
