

## Lost in Place

River Whyless

Are we in heaven?  
(It took a while)  
Adrift upon the sea  
For now I'm feeling safe in the morning sun

Finally out of darkness  
(We found the coast)  
And hid up in the hills with you  
For now I'm feeling safe from the coming tide

Hiding in the light of an easy love  
(The girl on my living room floor)  
I only find that the time is pure when it's gone

To rest here in the morning sun  
Or eradicate the peace between us  
My greatest curse is to know and still not believe  
Our greatest gift is to know a thing and still not believe it

Hiding in the light of an easy love  
(The girl on my living room floor)  
I only find that the time is pure when it's gone

Hiding in the light of an easy love  
(The woman on my living room floor)  
I only find that the time is pure when it's gone

And if you don't mind I might like to help myself  
And when it comes for me will you comfort me as well  
And if you don't mind I might like to help myself  
And when it comes for me will you comfort me as well
