

We All Deserve the Light

River Whyless

Welcome in my cabin
Anytime you'd like
See I'm burning up all the spruce and pine
And I know it's not the best for heating us
I know it's not the best for healing us
But it's all I have and I share my flaws with you

(We all deserve)

You can call on God in the morning once you're sober
And you can talk to me when you're all fucked up tonight
But if it just has to wait
If it's something I won't understand
Well I understand we all deserve the light
I understand we all deserve the light

(We all deserve)
