

I Believe In You And Me

Riverdales

Take all the time you want
Take all the time you need
If you follow your heart
I know what your answer will be
I know our love is true, It is way to see

Oh, I believe in you and me

For those time you are in doubt
For what may lie ahead
When all you think about
Are the worries in your head
I know our love is true, It is way to see

Oh, I believe in you and me

I always knew we could work it out
In spite of everybody's disbeliefs
That we ever made it here at all?
Well, I believe in you and me

As I get down on my knee
There's nothing bigger, all is great
And sometimes it doesn't hurt to have a little ring
I went for what is true
I know it's meant to be

Ohh, I believe in you and me
I believe in you and me
I believe in you and me
