

## Alone

Rivermaya

Sometimes you need someone to talk to  
But nobody seems to be there for you  
Just look at the sky and you will see  
What a pretty sight, I'm sure you'll agree  
Stars light up the sky at night  
Stars watch over you when you cry  
Life's too short to be so lonely  
Just let your mind sail across the deep blue sky  
Talk to a star like you and me  
Don't be ashamed, say what you want to say  
Tell your secrets and make your wishes  
It's time for bed, tomorrow will be a new day  
Stars light up the sky at night  
Stars light up your hopes and your dreams  
You don't have to fly to reach them  
Talk to a star, it's not as hard as it seems
