

## Closer

Rivermaya

Fly far away from this town  
Time to call the airline  
Until there's no one around  
Nobody we know

Forget about the time  
The sun will remind you  
Starlight surrounds your smile  
What do we do now?

Tempted to go slow  
Wasting our time again  
It doesn't matter anyway

Take a long walk down to our favorite place  
Where nobody else goes  
Laugh about all our favorite things  
That nobody else knows

Tempted to go slow  
Wasting our time again  
It doesn't matter anyway

This is an occasion where we smile at what we hear  
Try to close your eyes and feel the light  
I don't have a reason but I do believe in you  
Never mind what the world says  
All I know is that were closer  
Closer

Tempted to go slow  
Wasting our time again  
It doesn't matter anyway
