

River Down Below

Riverside

I'd like to tell you what I dream about
I'd like to say how much I miss you but
I say sorry, so come my darling, come to me
I'm sorry, I'm dying on the tree
I'd like to tell you that it's not too late
I'd like to say that I won with myself
But I say sorry, so come my darling, come to me
Sorry, I'm dying on the tree
Sorry, come my darling, come to me
I'm sorry, I'm dying on the tree
With the world beneath my feet

So you found me after all
Pile of rocks and two nailed boards

Linger beside me, you're all I have left
Tell me the story of your life
There's so much that I have got to find out
Until the next darkness arrives
I do not have too many requirements
Only one wish before you go
And before I crumble back into the dust
Take me to the river down below
Take me to the river down below

Stay, sit down and get some rest
Since you came across my place

Linger beside me, you're all I have left
Tell me the story of your life
There's so much that I have got to find out
Until the next darkness arrives
I do not have too many requirements
Only one wish before you go
And before I crumble back into the dust
Take me to the river down below
Take me to the river down below

And before I crumble back into the dust...
And before I crumble back into the dust...
