

Put Your Two's Up

Rizzle Kicks

If your feeling how I'm feeling then put your two's up
If your feeling how I'm feeling then put your two's up
If your feeling how I'm feeling then put your two's up
If you feel how I feel
If you feel how I feel
If you feel how I feel

Put your two's up

I wanna kick it now
So let me bring it down
You bring the drink, I'll bring the food and we can fizzle out
And we're jumping in this sea for sure
Because we're all hard core you know

And all the girls say
If you wanna be free then maybe you should come stay with me
And all the guys say
If you wanna be free then maybe you should come stay with me
And put your two's up

Okay everybody it's a vine
Gather round, gather round, gather round now
I want all of you to raise your glasses
And shake your arses
And part till the night is through

If you feel how I feel
Put your two's up
If you feel how I feel

And all the girls say
If you wanna be free then maybe you should come stay with me
And all the guys say
If you wanna be free then maybe you should come stay with me
And put your two's up

If your feeling how I'm feeling then put your two's up
If your feeling how I'm feeling then put your two's up

Yo, yo, yo
I'm a peace lover and a beat runner
Wanna hear colour let me see summer symphonies yo
Wanna live it up
So come and kick it bruv
We can even come aside and have a spit for fun
16 bar parts on the barbecue
Yeah we like to party it's true
And now I wanna say

Okay everybody it's a vine
Gather round, gather round, gather round now
I want all of you to raise your glasses
And shake your arses
And part till the night is through

If you wanna be free then maybe you should come stay with me

And all the guys say
If you wanna be free then maybe you should come stay with me
And put your two's up

If you feel how I feel
Put your two's up
If you feel how I feel

If your feeling how I'm feeling then put your two's up
If your feeling how I'm feeling then put your two's up
If your feeling how I'm feeling then put your two's up
If your feeling how I'm feeling then put your two's up

If you wanna be free then maybe you should come stay with me
And all the guys say
If you wanna be free then maybe you should come stay with me
And put your two's up

Okay everybody it's a vine
Gather round, gather round, gather round now
