

Yeah, straight up, wait up
Maybe once thought it's made up
More than once caused the break up
Now, I don't pause when I say love
I feel it right in my de la soul
Beyond the words of my paper
Wish I knew there were ways to feel
Back when I tightroped on razors
Yeah
Running did me no favours
(Changed it never wavered)
Had a goal and saved it
(And I say this)
Trust love is the greatest
(And I'm not just saying it)

I won't smoke, I won't drink
I'll just float, I won't sink
Couldn't cope, now I think
That you're my vice
I won't run, I won't hide
I'm at one with the hurt inside
Whenever you're there on my right hand side
Yeah you're my vice

You're my vice
You get me high yeah you're my vice
You give me life yeah you're my vice
(That's nice)
You get me high yeah you're my vice
You give me life yeah you're my

Got me lost in a daydream
I don't wanna wake up
(Girl I been sleeping)
I been through lows but you my favourite drug
(You got me high)
I feel those cravings yeah, I need that rush
(Spinning spinning)
But you the only one who saves me with your love
(With your, with your love)

I won't smoke, I won't drink
I'll just float, I won't sink
Couldn't cope, now I think
That you're my vice
I won't run, I won't hide
I'm at one with the hurt inside
Whenever you're there on my right hand side
Yeah you're my vice

You're my vice
You get me high yeah you're my vice
You give me life yeah you're my vice
(That's nice)
You get me high yeah you're my vice
You give me life yeah you're my vice

You're giving me an awesome high
Feeling comfier than sporty spice, my
(Vice)

On a trip like psilocybe, now I'm a different guy)
