She said this gonn' be her first time  
You'll be buying all kinds of shit  
I only see her doing halftime  
If we sneaking and geeking it's nothing

I found out she just need a knot  
And that's a favor a favor, favor for a favor

Everytime I see her face it's from a friend call  
I call her, why you even got a man for  
Playing for the wrong team, even though your ex changed  
And you won't find a thief in fear, exchange  
My counter marble, not granite, was faithful to the hooker  
Took in all that for granted, and love with the pimps  
Now her night is the gladest, yeah mine is the baddest  
You bitch wouldn't be attractive if she swallowed a magnet  
Now, where was I, the city where she got me off the ground  
Then [?] and grabbed her out the lost and found  
Now when we [?] her nigga and and my woman frown  
What's [?] come around  
I don't know, get on the phone, ride in a boat, shoppin' for coats stopping  
for nobody  
Marry the money, I don't elope  
She 'bout to blow, your dough, cause you giving it up  
She blow this dick and blow up your phone to come pick her up

All I do is pick the bitch you pick the back screen  
Fellatio, I beat the pussy up, and then I leave  
Don't got the number, but I got the IG name  
Ended up in her DM as BD hotter than BM  
Won't allow her to see him, but she swallowing my semen  
Head heathen, easy to crack like sea man  
Her missed calls in my recents  
Pussy lip drip cameos that she sent  
I turn around, you walk, made her switch up on you  
It never fails, alcohol goes against the loyal  
She got you reaching for your phone, that's that paranoia  
She take off in your whip, and then we hit a corner  
Never put it past 'er like a church guy  
She be back on the team, like Jordan 45  
She hit me on my comments, but don't get a reply  
She be backing to chasing knots like a neck tie
