Go and ask the last nigga, reach for the strap quicker  
Sip the gat nigga, feed a nigga like a fat nigga  
Boy I bet right back on a 10 to 4  
Bitch blow my dice 'fore I'm finsta roll  
Niggas running out of money try and bet your belt  
You done lost your rent can't help yourself  
What you telling me, fuck you mean  
Beam on your jelly bean  
Medellin, motherfuckers fiend, methamphetamine  
Ghetto king, I can do some things with the triple beam  
Bada-bing, if she wanna leave gotta let her leave  
Let me do my job girl don't make it easy for me  
In the morning make my exit now shes chasing for me  
R motherfucking J  
Knock another bitch while I'm on a date  
Do that make you jealous?

They hate me when I was down  
Now they hate me because I'm on  
These hoes use to turn me down now they all say I do them wrong  
Pockets use to be on E now my money getting long  
Same niggas yelling out fuck me the same ones banging my song  
It's that c-c-c-compton I don't gotta fucking stutter  
Give a fuck about a hater all about my bread and butter  
Take after my old man, you be bitching like your mother  
You be snitching undercover, grab that whip and we burn rubber  
On you fuck niggas, swear to God I barely trust niggas  
Always got the burner but don't ever fucking bust nigga  
Lying about your whip, still sitting on the bus nigga  
Lying on your dick, not a pimp you a cuffed nigga, aye
