# Last Man Standing

**RJmrLA**

You ever wake up in the mornin' it was war time
308's up in the drum make a baseline
We havin' pigs in the bag that's a pork rind
The dirty cops gon' clean it up but they gon' backbite
We was on the last flight, red eye
Packs on standby
Jedi, playin' mind tricks that's a head high
You ain't got the shit to put ya down don't depend on it
Niggas wanna get it for the two to put a ten on it
Been on it
You too broke to be a big homie
Rap game dried up gotta spit on it
Every beat I ever touched I put a hit on it
And turned it into soul food really grit on it

Nigga who
Who gon' be the last man standing? (ooh)
Ima be the last man standing, me or you
Who gon' be the last man standing? (Ooh)
Big trophy I'm da last man standing
We been waitin' on you
Big trophy I'm the last man standing
Big homie do it all for my family
I been lookin' like the last man standing
Big trophy I'm the last man standing

I'm the last man
Ima bad man
I've been bendin' corners in the ghost with the PacMan
Big stepper on these phones feds tap dance
Back hand fulla boogers worth of advances
They like RJ keep on marchin' on
I keep it closer when I'm far from home
A big trophy in this game of thrones
Stick pokin' out my Vegas robes
I do the math you see through you a hologram
We hoppin' out the autobiography signin' autographs
A Fremont alumni, shit I found my path
They waitin' for me to crash
Flip the hour glass

Nigga who
Who gon' be the last man standing? (ooh)
Ima be the last man standing, me or you
Who gon' be the last man standing? (Ooh)
Big trophy I'm da last man standing
We been waiting on you
Big trophy I'm the last man standing
Big homie do it all for my family
I been looking like the last man standing
Big trophy I'm the last man standing
I keep it closer when I'm far from home
A big trophy in this game of thrones
Stick pokin' out my Vegas robes
