

## Move It

RJmrLA

Uh, she said let me move it, let me move it  
I can do it, I swear I can do it  
Just let me move it, I can move it  
I can do it, I swear I can do this  
So, I gave it all to her  
That's my biggest mistake  
I just gave it all to her  
Shoulda seen the look on her face  
She said let me move it  
I been in these streets since thirteen  
Type to pull some work up out her shirt the day we first meet  
I like how you do it, I been nonchalant this whole time  
She ain't got to work a 9 to 5, she got her own grind  
I can make her move with it  
Trapping up in traffic I'm with trafficking fee  
Full of action, never lacking, I keep mine with a beam  
Make it happen, I need facts, don't think irrationally  
I take them burdens off your back and just attach 'em to me  
A little flavor, don't need a favor  
Yo' ego way up, yo' Bimmer paid off  
You eatin', got your weight up  
And everything you save up, I can turn it into acres  
I come back to make you major

I know it's gon' get lonely, girl  
Ooh, stay on your grind  
You got somethin' in you I want  
I'm gon' bring it all  
And we gon' run it up, you and me together  
Ooh, too much at one time  
You got somethin' in you I want  
'Cause we gon' run it up

But can I run it up wit' you?  
If I send you with a whole thing, girl would you know what to do?  
I'm out of state, won't be too long girl, just stay by your phone girl  
In the end it be worth it, I could never leave you alone  
Got back and get crackin', these niggas don't know how to move  
I got a lotta game to be sold, so when you hold the tool  
Don't make no stops, just go straight home, girl  
You stay in your zone, girl  
Stash it up in that attic, no, my cover can't be blown, God  
Don't settle, how I be finessin', yo, we gotta count this shit up  
You say you gon' move it, I hope you gon' move it  
You talk like you backin' it up  
Keep a hunnid racks in the cut, it ain't none of that lackin' with us  
You say you could do it, I hope you could do it  
The cash in the back of this truck, girl, we gon' run it up

I know it's gon' get lonely, girl  
Ooh, stay on your grind  
You got somethin' in you I want  
I'm gon' bring it all  
And we gon' run it up, you and me together  
Ooh, too much at one time  
You got somethin' in you I want  
'Cause we gon' run it up

You and me together, we gon' run it  
Ooh, too much at one time  
You got somethin' in you I want (You got somethin' I want)  
'Cause we gon' run it up, you and me together (Together)
