

# Really Out Here Too

RJmrLA

All the heat all summer and it got me a lil darker  
And the street light shoutout made it harder to get caught up  
Ain't no more goin' on outside  
It's really war goin' on outside  
I'm a do my own way your way no way  
Caught up with a doorway fuckin with a hoe yeah  
Diamonds in my rolly, parties in the doorway  
Plugged in with jose married to my old ways  
How can I divorce it?  
Still waters run deep in the streets like a faucet  
Everybody gotta eat we don't get to make choices  
Felonyes we forced with, trappin' out apartments  
Gotta pay the mortgage, I've been hearin voices  
Beggin me to get you door kicked  
You know I grew up as a poor kid  
I need a portion

They tell me I'd burn cause I never hold back  
(They tell me I'd burn cause I never hold back)  
Got me way to turnt tryna do the whole dance  
Cause we be really out here  
Whoo-who  
Cause we be really out here  
Whoo-who

They told me love they neighbor  
But if I never see inside of your house  
Don't be mad when a nigga bringing something out  
A whole lotta crime and capitol from off the couch  
Really think you makin' millions off that house  
Few pistols in the bag, we don't know how to act  
Think they stopped makin' guns when they made your strap  
Nigga dropped outta school cause he learned how to rap  
Got robbed in the stu cause he record where he trap  
All my young killaz hearing this shit  
I hear what I said hope you feel it  
Like me cause I'm feelin' this shit, shit  
And after shows take pics AMMIO that's my click  
Young nigga called 6 just touchdown  
Got me 50-1-50 with a 100 rounds  
I hit the party in my cities till they shut 'em down  
Hit the studio and write a 100 pounds
