

## A Place We Know

RKCB

Tell me now what you're keeping for the end of days  
You're hanging onto your secrets, they'll just wash away, hm  
I know it's not overreaching to say, mmh-hm-hm-hm  
We need more than the seasons to change

I just wanna see you there  
I just wanna see you there  
A place where we can breathe new air  
I just wanna see you there

Is this a place we used to know  
Is this the way that we can get home

If I fly a kite and I touch the sky  
'Cause I wanna try till I've gone too high  
It's never been easy to start over new, but if I had to choose  
I would rather leave all that we had to lose, oh-oh

I just wanna see you there  
I just wanna see you there  
A place where we can breathe new air  
I just wanna see you there

Is this a place we used to know  
Is this the way that we can get home  
If I fly a kite and I touch the sky  
Is this a place we used to know  
'Cause I wanna try till I've gone too high  
Is this the way that we can get home

I just wanna see you there  
I just wanna see you there  
A place where we can breathe new air  
I just wanna see you there

Is this a place we used to know  
Is this the way that we can get home  
If I fly a kite and I touch the sky  
Is this a place we used to know  
'Cause I wanna try till I've gone too high  
Is this the way that we can get home
