

Baptize

RKCB

There's something about the way you comfort me
Holding me in just like the trust you keep
Showing me love between your faded sheets
And I know now, I want you

Let's not make this complicated
I don't want this love to break but
I can't stop from falling through
Pull me down I'll let you take me
We don't need to hesitate
I'm already sinking into you

Feel you washing over me
I can't help but breathe you deep
Show me how to feel this release
I don't need to hide it
I love it when you, love it when you baptize me
You baptize me
You baptize me

You keep saying that you'll save me
Show me how I make you feel
I don't mean to keep you waiting
I wanna turn in you, breathe deeper, get lost in your waves

Let's not make this complicated
I don't want this love to break but
I can't stop from falling through
Pull me down I'll let you take me
We don't need to hesitate
I'm already sinking into you

Feel you washing over me
I can't help but breathe you deep
Show me how to feel this release
I don't need to hide it
I love it when you, love it when you baptize me
You baptize me
You baptize me

Stay as you are in the moment with me
You could take me apart in the secret we keep
Stay as you are in the moment with me
You could take me apart in the secret we keep

Feel you washing over me
I can't help but breathe you deep
Show me how to feel this release
I don't need to hide it
I love it when you, love it when you baptize me
You baptize me
You baptize me
