

Light Me Up

RL Grime

You can dry your tears every time us change
Calm your fears, you can climb again
We forget that it's so easy to love when everything is good
Don't compare, 'cause every sea sees rain
While you're here, just know I'll hold your hand, hand, hand, hand

And I will guide you
Let me remind you
Heights I will fly to
Depths I will dive to
Yeah I'll always find you

Yeah baby light me up
You can breathe me in
I'mma hold you up
Until the quiet's gone, woah
Yeah baby light me up
You can breathe me in
I'mma hold you up
Until the quiet's gone

Sure we have our fights
Sure we have our doubts
Should we lie?
We're not lying now, we know why
'Cause it's so easy to love when everything is good
Hold my skin, hold me in your hands
Let's begin, to give you all I am
Yeah, yeah, yeah

And I will guide you
Let me remind you
Heights I will fly to
Depths I will dive to
Yeah I'll always find you

Yeah so baby light me up
You can breathe me in
I'mma hold you up
Until the quiet's gone, woah
Baby light me up
You can breathe me in
I'mma hold you up
Until the quiet's gone, yeah
Until the quite's gone

La, da, de, da, da, da (yeah)
You and I should tag our names across the sky, yeah
You and I, across the sky, across the sky babe
La, da, de, da, da, da
Babe, babe
So what, we don't even have to try?
Babe, babe
Babe, babe
No, no, no, no, no

Yeah baby light me up

You can breathe me in
I'mma hold you up
Until the quiet's gone, woah
Baby light me up
You can breathe me in
I'mma hold you up
Until the quiet's gone, yeah
Until the quiet-
