

## Love Less

R.LUM.R

First let me apologize  
Cause I know you're not gon' like this conversation  
I've been kinda hard to find  
And I know that you deserve an explanation  
Well I...  
Been thinking bout it  
How us applies to you  
I'm undecided  
On what I'm supposed to do  
I think I'm lying  
When I think I'm telling truth  
Either way, that's still unfair to you

It's hard enough escaping my reflection  
And thinking what he's thinking bout too  
I know that all you wanted was affection  
Something I could never do

What if I love less  
Cause you no more stress  
What if I love less  
I won't hurt you babe  
I won't hurt you babe  
What if I love less  
Cause you no more stress  
What if I love less  
I won't hurt you babe  
I won't hurt you babe

I already know what you gon' say  
It's unfair to be predicting how you feeling  
And "maybe we can compensate  
And concentrate on things that bring you healing"  
While I know that you're trying to help  
You should be trying to save yourself  
'Cause I  
Been thinking bout it  
How "us" applies to you  
I'm undecided  
On what I'm supposed to do  
I think I'm lying  
When I think I'm telling truth  
Either way, that's still unfair to you

It's hard enough escaping my reflection  
And thinking what he's thinking bout too  
I know that all you wanted was affection  
Something I could never do

What if I love less  
Cause you no more stress  
What if I love less  
I won't hurt you babe  
I won't hurt you babe  
What if I love less  
Cause you no more stress  
What if I love less

I won't hurt you babe  
I won't hurt you babe

Believe me when I say nobody's perfect  
That's something that we both know  
What if what we're risking isn't worth it?  
What if we're supposed to let it go?

What if I love less  
Cause you no more stress  
What if I love less  
I won't hurt you babe  
I won't hurt you babe  
What if I love less  
Cause you no more stress  
What if I love less  
I won't hurt you babe  
I won't hurt you babe
