

Change Pt.2

RM

Things change, people change
Everything change
Yeah
Things change, people change
Everything change
Love change, friends change
Everyone change
Yeah
It is no strange
That's the world's shape
Yeah

I can't believe I loved you once
Fool me once, then fool me twice
Shame on you, yeah, shame on me
Think I lost my sanity
Chemistry we had for sure
Gradually we wanted more
They say you can't fix someone
Seems you got one fit you right

Fuck my interviews in years ago
I'm whole different, not that anymore
Fuck that wiki, fuck all those infos
What a stranger, I don't know this fool

Things change, people change
Everything change
Things change, people change
Everything change
Yeah
Love change, friends change
Everyone change
It is no strange
That's the world's shape
Yeah

You gotta admit it
Don't you get it still?
Someday a great grief will do come for you
Yeah
And then you'll know it too
You can't love someone like I do
That's all I can say to you
