I believe I believe

I believe in me, I believe in myself
Even as time passes I'll be livin' in myself
Believe my faith believe my rap
I believe my damn voice will one day be spread
Even if I've had times where I've questioned my dream or my existence itself
I haven't ever questioned my voice, so real
In my world, I am a god that not a deal
If you're concerned with rankings, I'm 1
How you feel babe, do you believe that you're your own master?
Are you matching well on the see-saw between reason and sense?
You want to become everything, a leader for yourself
But you have to believe in yourself, your own leader
Bad thoughts and pessimistic realizations
That'll seem like it's right but you're really erasing your flavor
We can only be truly used to it when we're looking outward
I have the Milky Way inside me but
No matter where I am or what I do
I believe I believe
Wherever I am, I will protect myself
I believe I believe

You know I believe in love, believe in hope
Believe in thoughts that I got while I be livin this life
Livin this stuff like breathin
I'm sometimes ordinary, what is a guy like me?
At times I seem a lot like an angel or like a devil
Everything can coexist, positive and negativity
The thing that guides me and this world is ultimately those two's synergy
All wanderings related to existence, sometimes until they're chaotic
Even those moments now seem lovable
If you're confused about what is right and what is wrong
What makes me want to live again, think about it
This music, passion, other beautiful things besides those, and fashion
Whiskey pretending to be an adult, uh mom you kiss me
Anticipate yourself making the meaning that lets you rest
Everyone is going to die, same meaning, different road
Anyway we are all on the palm of time
(Keep walkin') rather than forget myself, I believe

No matter where I am or what I do
I believe I believe
Wherever I am, I will protect myself
I believe I believe

Even if sometimes you don't believe in yourself, if it's a dream others tell
you to dream, they'll believe
Books and TV, in internet articles, dogs or cows or leader leader
Don't follow your heart, but your head, ah, it's not easy to say
No matter what, in that direction will be closer to your heart
Even if you cover your face, you can't hide your heartbeat
You can hide your face boy but you can't hide your heartbeat
It's one life to live and one heart to give
Who the fuck ya want to be? got no life to miss

No matter where I am or what I do
I believe I believe
Wherever I am, I will protect myself

I believe I believe

No matter where I am or what I do

I believe I believe

Wherever I am, I will protect myself

I believe I believe
