My love, don't look back anymore, mm
After all those waves passed through, mm-mm
Even if countless things bother you
You will protect yourself now
My love, don't look back anymore, mm
Behind the clearly mixed memories, mm-mm
These remaining lives stays like a bonus
You've done your best

My love, don't look back anymore, mm-mm
Which way to go? There'll be no regrets, mm-mm
Yeah, you're not that special (Yeah)
I won't cry at these words anymore
I smile
That I ain't gotta prove myself
That I ain't the one, that I ain't the shit
A child who was hungry for recognition
Older people that are suited mind
My balloon filled with myself, explode
After it exploded, I knew it was empty inside
I asked endlessly, can it just flow?
Can I belong where I don't want to?
Oh, seemed to my melody last forever
Yes me, my felony (Ooh-ooh)
I've only learned one thing so far
I'll be forever me (Ooh-ooh)
All the accidents I believed were inevitable
All those nights that were as long as eternity
You've done your best (Ayy)
